# Dermatologie Potsdam MVZ opens new outpatient surgery centre

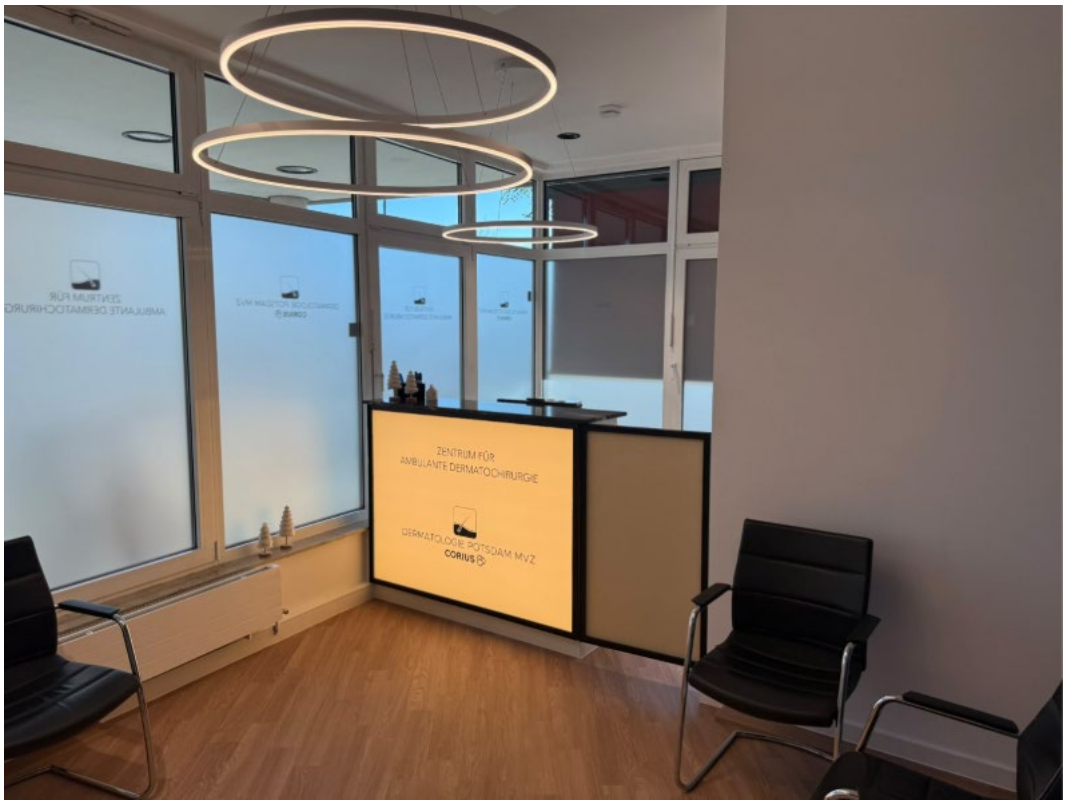

**Potsdam, November 2026 – Dermatologie Potsdam MVZ is expanding its medical services and opened a new surgery centre for dermatological and aesthetic surgery for privately insured and self-paying patients at Behlertstraße 33 in October 2026. The centre offers around 120 square metres of modern facilities dedicated to outpatient surgery. The new unit provides Dermatologie Potsdam MVZ with additional capacity for dermatological as well as plastic and aesthetic procedures.**

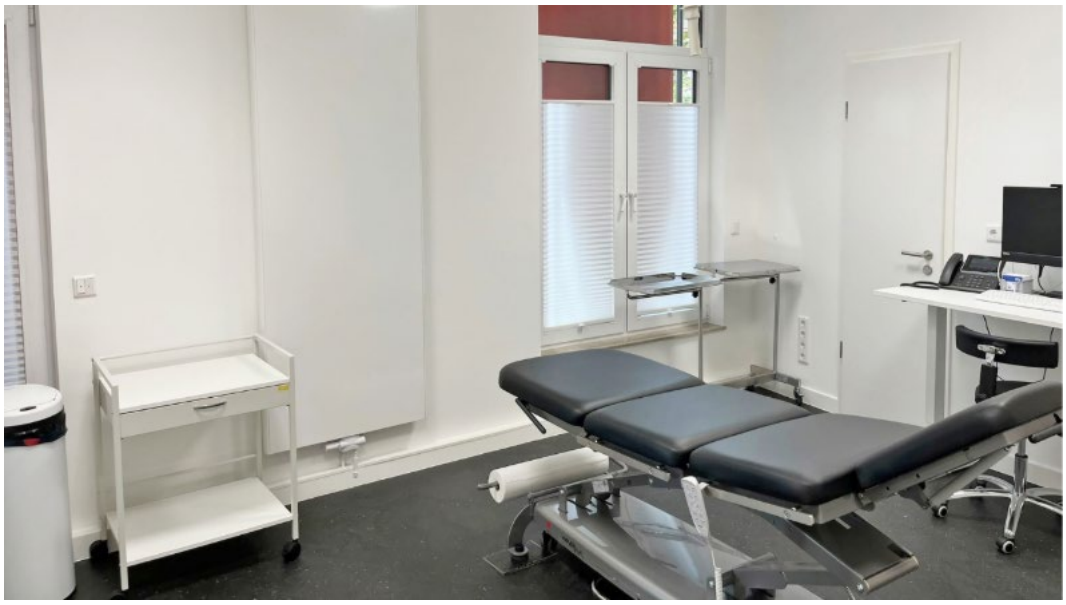

With the opening of the new surgical centre, Dermatologie Potsdam MVZ now has three practice units across two sites. Alongside the private practice on Berliner Straße, there are two units on Behlertstraße, one of which is the new outpatient surgery centre. The new surgery centre comprises two modern procedure rooms, a recovery room and additional support spaces.

The centre is headed by Anita Sünkenberg, a specialist in both plastic and aesthetic surgery and dermatology. “We are delighted to have recruited Ms Sünkenberg, an excellent surgeon who previously headed the dermatological surgery department at the University Dermatology Clinic in Cottbus as a senior physician. With the new premises, we have also been able to establish an attractive, modern surgery centre,” says Prof. Dr. K. Asadullah, Medical Director of Dermatologie Potsdam MVZ.

Anita Sünkenberg adds: “With the new outpatient surgery centre, we are creating additional capacity for surgical procedures and expanding our existing range of services. The new premises and our team enable us to offer even complex dermatological, plastic and aesthetic treatments and provide our patients with comprehensive surgical care.”

The centre’s range of services includes the removal of benign and malignant skin lesions, including procedures on the face, and is complemented by plastic and aesthetic procedures and treatments. These include blepharoplasty to correct drooping eyelids, brow and thread lifts, and scar revision.
